Dear,

I write in connection with your request for information dated 20th September 2021 concerning red traffic light camera activations.

I am required by the Freedom of Information Act 2000 to handle all requests in a manner that is blind as to the identity and motives of the requestor. Any information released as a response to a request is regarded as being published and therefore in the public domain without caveat.

Your request for information has now been considered and after having consulted the Justice Traffic team – I am now able to respond as follows.

You wrote:

For the combined total of the 2019/20 and 2020/21 financial years please tell me which automatic camera in your area recorded the most drivers going through red lights? By which I mean which single set of traffic lights in your area had the highest total of offenders for going through a red light in that two year period.

Please state: (a) the location of the traffic lights (b) how many activations the camera/mechanism detected in total of vehicles going through a red light, (c) how many of these activations resulted in a notice of intended prosecution being sent out, and (d) how many activations did not result in a notice of intended prosecution being sent out because the vehicle had a foreign registration number.

Our response:

Wiltshire Police can confirm that there is no information held in relation to your request.

I am satisfied that all the relevant information has been passed to me and been considered in the light of your request within the time constraints applicable under the legislation.

Wiltshire Police would like to thank you for the interest that you have shown in the Force.

Yours sincerely,
