Ref: FOI 2023/736

I write in connection with your request for information dated 25th July 2023 concerning Qlik Sense.

I am required by the Freedom of Information Act 2000 to handle all requests in a manner that is blind as to the identity and motives of the requestor. Any information released as a response to a request is regarded as being published and therefore in the public domain without caveat.

Your request for information has now been considered and after having consulted the Improvement and Change Team – I am now able to respond as follows.

You wrote:

I would like to submit a request for information under the Freedom of Information Act (FOIA) 2000 regarding your force's use of Qlik Sense, and any algorithms used as part of Qlik Sense for risk assessments, geographic analysis, and monitoring and/or ranking persons according to risk/harm.

1. In the DPIA your force previously provided for Qlik Sense (attached), you reference using Qlik Sense to "provide risk-based "scoring" of individuals" (p.10), stating that: "Algorithms will be created which rank persons according to the risk/harm they may cause/be subject to [...]" (p.10) In the same document, you also state: "use of predictive analytics software will be subject to their own DPIA" (p.10). I would like to request copies of any/all of the DPIAs your force has completed relating to your force's usage of any/all predictive analytics software.

Our response:

No information held - Wiltshire Police do not use any Predictive Analytical software. As a result, there is no DPIA on predictive analytical outputs or software.

I am satisfied that all the relevant information has been passed to me and been considered in the light of your request within the time constraints applicable under the legislation.

Wiltshire Police would like to thank you for the interest that you have shown in the Force.

Yours sincerely,
