Dear XXXXX,

I write in connection with your request for information dated 13th January 2024 regarding fixed speed cameras, red light cameras and average or variable speed cameras.

I am required by the Freedom of Information Act 2000 to handle all requests in a manner that is blind as to the identity and motives of the requestor. Any information released as a response to a request is regarded as being published and therefore in the public domain without caveat.

Following receipt of your request, research was conducted by Justice Traffic at Wiltshire Police.

Your request for information has now been considered and I am able to respond as follows.

You wrote:

For each fixed speed camera, red light camera, and average or variable speed camera under your jurisdiction, can you give me the number of NIPs (notice of intended prosecutions) handed out. Also include cameras with zero NIP's handed out in the data.

I want the raw data for 2023 (01/01/23 - 31/13/23), broken down by speed camera.

Please provide whatever the most granular location identifier is for each speed camera.

In dealing with average or variable speed cameras, I appreciate that NIP data may not be attributable to a single camera in the raw data. If this is the case, please provide whatever location identifier(s) you have in the raw data that will allow us to understand where the NIP relates to geographically.

If you need any clarifications to fulfil the request please ask, but do not hold up supplying any data that doesn't relate to the clarification. E.g if you need clarification around how to deal with average speed cameras, you can still provide the data for the fixed speed camera, red light cameras.

Proud to serve and protect our communities
