Under the Freedom of Information Act, I am requesting the following information:

I am seeking information in relation to the use of AI in recruitment processes.

Does Wiltshire Police use AI in any part of the job recruitment process. This can include: identifying the hiring needs, preparing the job description, talent search, screening and shortlisting, interviewing, evaluation and offer of employment, and introduction and induction of the New Employee. This also includes any AI technology that uses body-language analysis, vocal assessments, gamified tests and/or CV scanners.

If the force does use AI during any part of this process, which software is most commonly used, and since when has this software been in use? Which company provides this software?

How much have you spent on AI technology related to the use of recruitment?

Apart from using AI in recruitment, does Wiltshire Police use AI technology in any other aspect? Please specify what that is.

Our response:

No Information Held – We do not use AI at any stage of the recruitment process.

I am satisfied that all the relevant information has been passed to me and been considered in the light of your request within the time constraints applicable under the legislation.

Wiltshire Police would like to thank you for the interest that you have shown in the Force.

Yours sincerely,
Force Disclosure Decision Maker
