Dear,

I write in connection with your request for information, dated 15th July 2026 concerning deer.

I am required by the Freedom of Information Act 2000 to handle all requests in a manner that is blind as to the identity and motives of the requestor. Any information released as a response to a request is regarded as being published and therefore in the public domain without caveat.

Following receipt of your request, research was conducted by the Business Intelligence Department of Wiltshire Police.

Your request for information has now been considered and I am not obliged to supply the information you have requested.

You Wrote:

This request concerns incidents involving deer and vehicles recorded on your force's command-and-control / incident-logging system (for example STORM or equivalent). It does *not* concern STATS19 personal-injury collision records, which are published nationally.

We want to know how many incidents there are annually involving deer and vehicles, either colliding with or swerving to avoid deer.

I am happy for the figures to be based on a keyword search for "deer" (and related terms such as stag, doe or fawn), and for the counts to be approximate.

- 1) For each of the calendar years 2021, 2022, 2023, 2024 and 2025, how many incidents recorded on your command-and-control / incident system referred to a deer on or near a road? Please provide a separate figure for each year, and break it down by monthly data if available.
- 2) Of those incidents, how many involved a vehicle either colliding with, or swerving to avoid, a deer? A combined figure is acceptable.

- 3) If possible, in addition to the above, for the same calendar years, can you list all recorded incidents with cows (cattle), horses, sheep, pigs and boar.
- 4) If readily available, please provide the road type (motorway, A-road, B-road or other) where the incidents above occurred.

Response:

The information that you are requesting for Question Three is not stored in a way which allows for easy retrieval and Wiltshire Police does not have the search facility to automatically gather this data. To clarify, our Business Intelligence Department have confirmed that to ascertain this information for the requested time periods would require manually searching and reading each and every Occurrence Log individually to see if it related to this Question. This would exceed the 18 hour work limit to locate, retrieve and extract the information and therefore, Section 12 applies.

However, under our Section 16 obligation to provide advice and assistance, I would advise that you could resubmit your request without this Question, however please note that other exemption(s) may be applicable.

Section 17 of the Freedom of Information Act 2000 requires the Wiltshire Police, when refusing to provide such information (because the information is exempt) to provide you the applicant with a notice which: (a) states that fact, (b) specifies the exemption in question and (c) states (if that would not otherwise be apparent) why the exemption applies.

The exemption applicable to the information requested is:

Section 12: Exemption where cost of compliance exceeds appropriate limit
Section 1(1) does not oblige a public authority to comply with a request for information if the authority estimates that the cost of complying with the request would exceed the appropriate limit.

In accordance with section 17 of the Act, this letter represents a Refusal Notice for this particular request.

I am satisfied that all the relevant information has been passed to me, and been considered in the light of your request, within the time constraints applicable under the legislation.

Wiltshire Police would like to thank you for the interest that you have shown in the Force.

Yours Sincerely,

Wiltshire Police offers a re-examination of your case under its review procedure.
