My query relates to data on drug facilitated sexual assault. I appreciate there is no Home Office crime code specifically for this and so I am asking you to cross check particular crimes with key word searches in the text fields.

I would like all of the following data broken down for each calendar year from 2015 to 2025, and Jan to June 2016.

1. For each year: The number of incidents reported of rape or sexual assault where the log also contains any of the following key words: "sleep" OR "drugged" OR "drug facilitated" (on your incident logs)
2. For each of the above (broken down by year), how many of these incidents were then logged as crimes? (on your crime recording system)
 1. For each of the crime reports (in questions 2), how many: a. Proceeded to investigation, b. Proceeded to prosecution, c. were logged as No Further Action
2. For each year - how many a. Incidents logged, and b. Crimes logged for "conspiracy to rape"
3. For each year - how many a. Incidents logged, and b. Crimes logged for "conspiracy to administer a substance with intent"
4. For each year - how many a. Incidents logged, and b. Crimes logged for "administering a substance with intent to engage in sexual activity"
