

## Is your jewellery safe?

Remember the following advice to help improve the security of your valuables:

■ Fit **5 lever mortise locks** on

external doors.

■ Fit **secure locks** and take extra care when locking up.

■ When leaving the property **remove keys** from locks and place out of sight.

Consider installing **external lighting** and **CCTV**.

Make your property look **occupied** at

all times - use automatic light timers.

Keep a **photo record** of all your

jewellery. Make sure you keep the photos in a different place to the valuables themselves.

Consider installing an **alarm** - homes with

alarms rarely get burgled.

Keep all your valuables in a **safe and secure** location -

consider fitting a good quality safe.

**Never** leave valuables on display.
